BALL PLAYERS CAUSE ARREST OF MOKENA MAN

F. Steinhagen, Sr., accused of firing at ball players last Sunday.

GIVEN HEARING TUES. EVE

Mokena, Aug. 28—Sunday afternoon during the ball game between Blue Island and Mokena a ball was batted accidently over onto the Fred Steinhagen, Sr., premises. One ot the Blue Island players jumped over the fence, grabbed the ball off the ground and was climbing back over the fence when it is alleged Mr. Steinhagen pulled out a revolver and fired. On Monday a warrant for his arrest charging him with assault with a deadly weapon was taken out by Gustave Olson and served by a Deputy Sheriff. On Tuesday night the defendant was given a hearing before Justice W. C. Owen, found guilty and was fined $25 and cost.

The base ball team chages that Mr. Steinhagen has kept a large number of their base balls which have landed on his premises as he refuses to allow the boys to go after the balls as long as they were on his land.

When interviewed Mr. Steinhagen [illegible] the boys [illegible] damaging a wire fence between his place and the ball diamond by climbing over the fence thus bending and breaking the wires. He further alleges that bottles have been thrown at him and vile epithets been used against him, which the ball players deny. Mr. Steinhagen charges tha the ball players were trespassing by going on his land in search of balls, and ordered them to keep off his place.

Mokena, Aug. 28.—Next Sunday will be a red-letter day again for the St. John's German Evangelical church, for on that day the annual Mission Fest will be observed and an extraordinarily big program will be carried out. There will be special services in German at the regular morning hour of worship. The principal speakers at the morning session will be Rev. Carl Freytag of Stevens Point, Wis., and Rev. G. Lambrecht of Frankfort. In the evening services will be held in German and in English. Rev. Mr. Freytag and Rev. Mr. Stoschein of Green Garden will preach the evening services. A special musical program will also be rendered.

The Mokena Brotherhood is greatly interested in the Brotherhood convention which has been in session at Elmhurst Monday, Tuesday and Wednesday. William Niethamer represented the Mokena organization as a delegate. Rev. William Kreis of the St. John's German Evangelical church has also been in attendance.

Mr. and Mrs. Joseph Fulton of Indianapolis, Ind., have been visiting with Mrs. George and Frank Moriarty the past week and other Mokena friends.

Miss Winnifred Fulton, who has been spending several weeks with her grandmother, Mrs. Lizzie Moriarty, has returned to her home in Joliet.

The Mokena Baseball club and the Blue Island team crossed bats at the Erickson baseball park Sunday afternoon. The game was a rattling good one from the opening inning, and resulted in the victory going to the Blue Island team with a score of 13 to 11.

The "coffee" directed last Thursday at the Mokena hall under the auspices of the Ladies' Aid society of the St. John German church was a decided success. About $36 was realized.

Mr. and Mrs. Henry Stacey of Santa Rosa, Cal., were guests at the William Semmler home Saturday.

The Mokena Men's club met Monday night in business session at the Frank Mall Lumber office. Plans were discussed for the annual Labor day celebration to be held at the Cappel Grove.

Miss Nora Fitzgerald of Chicago has been a guest at the Karl Krapp home for the past two weeks.

MATTESON HAS HIGH SCHOOL COURSE NOW

Matteson, Aug. 28.—The Matteson public school, which opens next Tuesday morning, will also open a new department in the way of a year's high school course, known as the junior high school. A good sized class has been selected. Any eighth grade graduate can enroll in the junior high school. The state board of education has recognized this school as fully accredited and the junior high school has also been recognized as a fully [illegible] erating the new high school will be paid by the non-high school board of Cook county. This high school has been started for the benefit of the boys and girls of this community who would otherwise not have the opportunity to attend a high school on account of distance and location.

Any student of the new high school after completing the two-year course can take up his credits and attend any other accredited high school. This can also be done before completing the full course, and after taking up the credits due students can attend whatever school they choose.

The law granting such a school as this to smaller communities is a law that affords an opportunity to every boy and girl to secure a high school education. A cordial invitation is extended by the Matteson public school faculty to every eighth grade graduates in this community to take advantage of this opportunity.

The personnel of the Matteson public school faculty is as follows for the ensuing year:

Miss Ella McGuire in charge of the primary grades, first, second and third. Miss Ella Willer will have charge of the intermediate departnmet, composed of grades fourth, fifth and sixth. Prof. Fred Lustfeldt, principal, in charge of the seventh and eighth grades and the high school work.

Dr. C. A. Hercules has purchased a new Reo auto and has been giving the new car a tryout by motoring with Mrs. Hercules to Silver Lake, Indiana, where they have spent a week.

A party was directed by a company of young people Thursday evening on the German Lutheran school lawn in honor of Miss Lydia and Paul Becker. About 35 guests were present.

The Charles Grosche, Scharnhorst and Meinheit families visited Lincoln park last Sunday. George von Berg and the Dettmering families have also been sightseeing at Lincoln park. The past week the A. F. Robinson, George Templin and Jack Lennon families visited Jackson park.

The two negroes who held up Officer George Peterson and caused much excitement until captured by a posse two weeks ago, were brought here for trial from Chicago last week. They were given a hearing before Justice Edward Brooks. Both were found guilty. Dotherd was bound over to the grand jury while his younger companion was sentenced to the juvenile school at St. Charles for two years.

Miss Helen Lustfeldt has returned from a visit with relatives at Buckley, Ill.

Miss Aurelia Hauck has enjoyed a vacation spent at Klinger Lake, Mich.

TWO TINLEY PARK COUPLES WED PAST WEEK

Tinley Park, Aug. 28.—Tinley Park has had two weddings the past week. On Thursday afternoon Mrs. Elizabeth Funk and George Lorenz were united in marriage at a quiet home wedding which took place at the home of the bride's parents, Mr. and Mrs. Henry Vogt, Sr. The wedding took place at four o'clock in the afternoon and was witnessed by the immediate family only. Rev. A. Buddenhagen of the Zion Lutheran church performed the ceremony. Mr. and Mrs. [illegible] Vogt were the attendants. Following the ceremony the couple left for the Dells of Wisconsin to spend their honeymoon. Upon their return Mr. Lorenz will take charge of the Linden Garden in Tinley Park. Both young people are well known and their many friends extend their best wishes.

Saturday evening Theodore Englehardt and Miss Lulu Rauch were quietly married, Rev. Mr. Grave of the Bachelor Grove Lutheran church performing the ceremony. A brother of the groom and a cousin of the bride served as attendants. Following the wedding a sumptuous supper was served at the home of the groom's parents. About 14 families were present. Mr. and Mrs. Englehardt are popular in their social circle and their many friends wish them much happiness. Their future home will be in Blue Island.

Mr. La Vetta is building a new residence in Tinley Park. John Klepper, Sr., Henry Klepper and Christ Boerner are engaged in building it. Mr. La Vetta has been in the employ of Montgomery Ward & Co. for 15 years.

Mr. and Mrs. Arthur Studer have gone to Oklahoma to visit with the latter's brother, Leon Knecht.

A special meeting of the congregation of the Zion Lutheran church was held Sunday. It was decided to make further improvements on the church building by having new front doors cut in and an aisle extended down the center of the church. The pews will be rearranged so as to make more room. The basement, which is being excavated for the new furnace, is also to be somewhat enlarged.

Christ Andres has something of interest to auto owners by way of a Goodyear tire which has seen 10,000 miles of service without being taken off. The tire was removed Saturday for the first time after completing the 10,000-mile run.

Chicken cholera has broken out in this vicinity. Many chickens are dying from the disease. In some instances as many as 40 chickens have died at one place.

Fred Ahrens returned Saturday from a trip to Minnesota. He says Illinois is good enough for him.

Edward Smith of Cedar Lake, Ind., has purchased 37 acres from Henry Siebert. He expects to locate here later on.

Mrs. J. C. Funk, and daughter, Miss Eleanor, are spending a week at Starved Rock and Deer Lake.

Mr. and Mrs. [illegible]dward Mohr and daughter spent t[illegible] week end in Blue Island with M[illegible]hr's father, Mr. Heckeler.

NEW LENOX IN FAVOR OF HARD ROADS 39 TO 3

New Lenox plans to take part in County Home coming.

OTHER NEWS NOTES

New Lenox, Aug. 28- The haad road proposition voted on Monday carried 39 to3

New Lenox, Aug. 28.—A meeting was held Thursday night at Grand Hall for the purpose of making plans for the people of New Lenox township to attend the Will county returned soldiers' reception to be held at Dellwood park the fore part of September. The meeting was held under the auspices of the Red Cross chapters of New Lenox township and was quite largely attended.

Howard Francis has exhibited some of his fancy bred hogs at the Spring field fair and has captured high honors. Fred Francis exhibited some of his choice sheep at the same fair and also carried away prizes.

The Woman's Missionary society of the New Lenox Methodist church will meet with Mrs. Fred Francis on Friday afternoon, September 5, one week earlier than the regular meeting day.

The fourth quarterly conference of the Methodist church was held Thursday [illegible] at the [illegible] with Pastor Phelps, the district superintendent, in charge.

Mrs. William O'Reilly will entertain the Home Improvement club September 19. The meeting was to have been on September 17, but on account of the county home coming being held this date the meeting will have to be held two days later. This meeting will be a thrift demonstration Practical methods of thrift are to be explained by the various members and papers on the subject will be read.

Last Tuesday the New Lenox Red Cross met at the Methodist church to consider plans for paying the expenses incurred through the home coming reception tendered the New Lenox township returned soldiers recently. At this meeting it was found that New Lenox township received a cash award of $100 on a prize exhibit at the old Will county fair some years ago, and this money was never used. It was voted to use this money in defraying the reception expenses.

A large number of New Lenox people and members of the Camp Meeting association attended the funeral of Mr. Allott, president of the Camp Meeting association, which was held Sunday at Wilmington, his home.

A shower dampened the camp grounds Sunday, but not the camp meeting spirit. The services were held in the tabernacle which was filled to capacity.

New Lenox, Aug. 28.—About two o'clock Monday morning burglars attempted to break into the store of Brown & Fitzer. The burglar alarm rang which aroused the residents of the village and a posse quickly formed and went to the store, but the burglars had made their get away. Only a small amount of goods were stolen. Entrance was gained through a door on the west side of the store.

THEO. OESTREICH OPENS SHOP IN JOLIET.

Theo. Oestreich, well known to New Lenox people, has opened a new shop of his own at 634-38 Cass street, Joliet, the past week. He will do all kinds of auto repair work, including the repairing and dressing of tops, truing up of auto wheels, installing windshield and headlight glass, etc. Mr. Oestereich has been associated with Matthes & Co., in Joliet for 15 years. He is a good workman and his many friends here wish him well in his new undertaking. He has adopted as his slogan "Have Pete do it for you."

Born Thursday night to Mr. and Mrs. Irwin Jensen at the Silver Cross hospital, Joliet, a son. Mrs. Jensen, before her marriage, was Miss Grace Storm, daughter of Mr. and Mrs. Harry Storm.

place for your wife, mother or sister.

Wednesday evening at the [illegible] 1919. he bride. Thirty-five relati[illegible] riends witnessed the ceremony.

Rev. W. H. Ake, former pastor of he Frankfort Methodist church, and ow pastor of the Vincent M. E. hurch of Chicago, was the officiating lergyman. The ring ceremony was used. The attendants were Miss Mary Hunter, sister of the groom and Raymond Warning, brother of the bride.

The bride wore a creation of georgette crepe and silver lace with pearl rimmings, and carried a bouquet of bride's roses. Miss Hunter hose a gown of pink silk. She carried a bouquet of sweetheart roses.

The home was beautifully decorated in pink and white.

Following the ceremony a two-course luncheon was served. The bridal couple departed for the Dells of Wisconsin, where they will spend a few weeks. After October 1 they will be at home in Mokena.

The out-of-town guests were: Mr. and Mrs. Charles Long and Mrs. Millard Dix and Miss Ruth Dix of Marseilles, Ill.; Mr. and Mrs. Thomas Hunter, Miss Coventry and brother of Chicago, Mrs. J. Fuss of Montana, Mr. and Mrs. Charles Hanson of Plainfield, Gamble Hunter, who returned a few days ago from France, and Florine Murley of Minooka.

Many varied and beautiful gifts of cut glass, linen, silver, etc., were received.

Miss Viola Lankenau entertained the Home Improvement club Thursday. A number of interesting papers were on the program. Mrs. Peter Folkers had a paper on places of interest in Will County, Mrs. F. J. Kohlhagen on places of interest in Chicago. Mrs. Levi Doty gave an interesting paper on the late Dr. Anna Shaw, noted suffragette leader. A number of musical selections were rendered. Miss Eunice Owen favored the gathering with a solo.

Arthur Kohlhagen, aged thirty-five years, well-known Frankfort resident, died at Silver Cross hospital, Joliet, Saturday afternoon. He had been suffering with inward goiter trouble. The funeral services were held Tuesday from the late home to the St. Peter's German Evangelical church, Rev. Mr. Lambrecht officiating. Burial in Pleasant Hill. Mr. Kohlhagen is survived by his wife and five brothers and two sisters.

The Ladies' Aid society of the Frankfort Methodist Church journeyed to New Lenox Wednesday morning. They met Mrs. J. A. Matlack, wife of the pastor. Later a basket picnic was held at the camp grounds, following which the members attended camp meeting in a body.

The Red Cross held a meeting the fore part of the week to perfect plans for directing a reception for the Frankfort soldier boys who have returned from service.

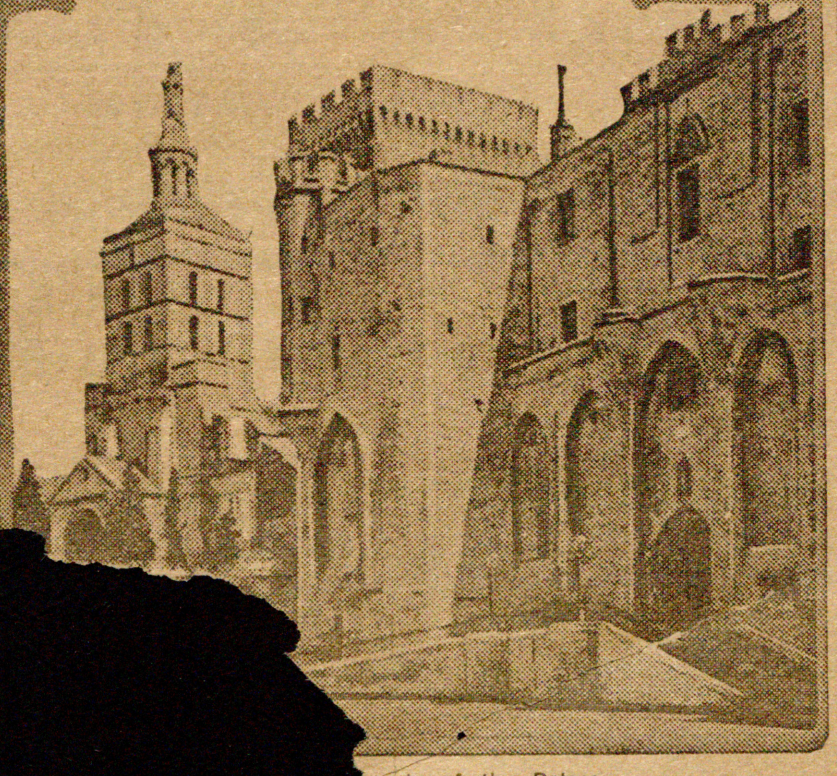
Messrs. Alvin Marti, Oliver Brinkerhoff, Henry Voss, Arthur Sievert and Emil Engleman and the Misses Grace and Olive Kohlhagen, Clara and Violet Krusemark and Mabel Block motored to Valparaiso, Ind., recently.

Albert Bobzin and parents and Mr. and Mrs. Louis Krusemark and family motored to Cedar Lake, Ind., last Sunday.

TO DIRECT LAWN SOCIAL.

A lawn social will be held on the local Methodist chruch lawn under the auspices of the Ladies' Aid society Friday night, August 29. Ice cream and cake will be served.

PALACE of the POPES at AVIGNON



acade of the Palace.

[illegible] since I [illegible] of the [illegible] at Avignon which Froissart [illegible]lled "the finest and strongest [illegible] in the world;" and the most im[illegible]ortant occurrence in that period, from the point of view of the architect and the historian, is that in 1907 the huge building was at last relieved from its dangerous task of sheltering soldiers, who cared as little for its beauty as for its associations, writes Theodore Andrea Cook in Country Life. It was, perhaps, better to be the barracks of a regiment than to be a prison like Tarascon, or a disintegrating ruin like Beaucaire. But none of these three glorious relics of Provencal history deserved so ignominious a fate, and the department of historic monuments earned the thanks of every scholar by its change of policy toward these splendid castles of the storied Rhone.

One invaluable result of clearing the Palace of Avig[illegible] has been [illegible] the first time it is possible to compare the actual constructions of this extraordinary building with the records preserved in the Vatican and investigated by Eugene Muntz, Maurice Faucon and F. Ehrle. This comparison was carried on by Felix Digonnet, the learned guardian of the museum at Avignon, and when again the continent is free ground for the curious traveler.

Color and Massiveness.

The vast and deserted esplanade in front of this giant block of masonry is a fitting framework to so massive a memorial of dead majesty, and the whole atmosphere of the scene is as different as possible from anything you have passed on your way through the modern town from the railway station of the republic. The exquisite color of the pale gold masonry—"teinte uniforme de feuille seche," said Henri Beyle—is one of the loveliest attributes of the buildings of Provence, as it is of our own Dorsetshire houses; but it is the titanic strength and elemental pride of this enormous building which first impress themselves on the beholder who stands before its ruined western entrance gate.

The octagonal turret jutting from the tower immediately on your left of the main entrance preserves, in its name of "The White Cardinal," the memory of that humbly born Cistercian monk who, in December, 1335, assumed the title of Benedict XII, and really began the foundation of the palace as we see it. Two-thirds of the whole, at any rate, he planned; and his is the portion that is the simplest and strongest of it all.

No marble was used anywhere in the palace, which was wholly of French workmanship and Provencal design, with the square towers which mainly differentiate that school from the round-towered style of the French kings which is so massively exhibited in the contemporary Fort St. Andre just across the river. The deeply carved machicolations, still to be seen here and there and originally placed on every tower and wall, had only just been introduced by the end of the fourteenth century. Those on the great facade are the largest in the world, sometimes two yards in length by 18 inches deep, sufficient to hurl down timbers that could sweep a dozen storming ladders off the wall or crush a whole company of sappers.

The only luxury observable in the palace was to be found in its interior furniture, which has wholly disappeared. Nothing but the solidity and imposing strength of its exterior walls remain to hint at what Froissart so much admired.

The old pontifical chapel of John XXII, enlarged by Benedict XII and since restored, is now the repository of the archives of the province, and forms the extreme northern line of buildings between the Tour de Trouillas at the northeastern corner and the Tour de la Campane at the northwest. Benedict's work was built above the older structure, originally the parish church of St. Stephen, by Pierre Poisson of Mirepoix in 1335. For some time it was turned to the base uses of a common gaol, and it was Revoil who designed its present barrel-vault at a height from the ground which is equivalent to that of the two original buildings one above the other. Their frescoes by Pierre du Puy have all disappeared; but we know that his workmen were paid four shillings a day of our money, while he had nearly 20; and that their colors were white, green, sky blue, indigo blue, vermilion, saffron, and so forth, [illegible] white of egg [illegible] oil an[illegible]eed oil, and gar[illegible]ed with fine gold. In 1336 Benedict [illegible] finished the tiling of the floors, a[illegible] some remains of them are preserved in the Musee Calvet in the town. This chapel was not used for more than 30 years, and was gravely damaged by fire in 1392.

Tour Des Anges.

Returning to the courtyard we find in the Tour des Anges, at the angle of the eastern wall, one of the best preserved of all Benedict's buildings. It was originally entered from the interior of the palace only, and the steep slope of the rock outside enabled the architect to build two more stories there than are visible from the courtyard. It forms a building 46½ meters high on the plan of a perfect square, with a strong buttress pillar at each angle and walls more than ten feet thick and nearly 60 feet long. Its cellars contained the pope's private stock of wine. Above the wine cellar was the lower treasury, with its four-pointed vaults resting on a central pillar without base or capital, all strongly guarded by huge locks and ironbound doors.

Immediately above this was Benedict XII's bedroom, which was used by Clement VII in 1379, and called the "Chamber of the Flying Stag," from one of the many frescoes still discoverable beneath multitudinous layers of military whitewash. Two windows with stone seats in their embrasures look out over the entrance court, and by a third you see across the valley of the Rhone to the blue shadows of the distant Alps. Several of the secret stairways, carved in the thickness of the walls, by which the Pope reached various parts of his palace, can still be clearly traced. Above his holiness was a library filled with precious manuscripts, and higher still is a larger apartment from which soldiers could defend the whole tower against attack, called the chatelet.

On the left of the spectator, and continuing the east wing of the courtyard toward the north, are the other private apartments of the Pope, designed by Bernard Canelle of Narbonne. The appalling reconstructions necessitated by the barracks have almost entirely destroyed the original conception, but the minute details recorded in the Vatican are more than sufficient to replace Canelle's design in good time. This comprised the Pope's private kitchen and wardrobe, his dining room, his study and his oratory. Behind it, and in the angle of the Tour des Anges, is the little Tour des Etuves, where his holiness took his bath, above the chamberlain's council room.

DADDY'S EVENING FAIRY TALE

by Mary Graham Bonner

© by the AUTHOR

SAVING A TAIL.

Nancy had been a little bit worried over Sir Benjamin Bacon's right eye, which had looked at her in such a funny way the day before.

"I'm sure that pig thought I was up to something," she said to herself. And that evening she spoke to her aunt, the mother of Jack and Marian.

"I don't believe that pig thought we wanted to give him a party at all, though the other pigs may have thought so. But he acted as though we were just doing it to appear fine and as though he didn't think we were at all."

"Oh," laughed Marian's mother, and Jack's mother, too, for that matter, "I imagine the pigs were glad to have a party and didn't stop to think why you gave it to them!"

Now, Nick was in Jack's class in school during the few days of the children's visit, and Nancy was in Marian's.

It was after school the following day that Marian said she had something quite special to do at home, and she wished Nancy wouldn't bother to hurry back but would stay and play with the other girls.

She behaved so queerly about it that Nancy couldn't imagine what was the trouble. "Can't I come along, too?" she asked, but Marian said:

"I'd feel much better if you played with the others."

Nancy rushed up to Nick as soon as he came out of school.

"Oh, Nick," she said, "something is the matter with Marian. She behaves so queerly. She said she wanted to have me play with the other girls, for she had something special to do at home. She really wouldn't let me go home with her. I would have been mad only she was just too queer for anything. I don't understand."

"Jack was the same way, Nancy; let's go back, anyway and see what is up."

They hurried down a street, running most of the way and then turned down another and ran almost all of five more blocks to reach their cousins' home.

Nick went half-way down the hall when he [illegible] straight in[illegible] Jack coming up from the cellar stairs. He was holding in his arms the little fox terrier Marian had just bought a week before with her birthday money. The dog was only a tiny puppy still, a lovely little soft white puppy with one brown ear and one black one and two black spots on his soft white back.

"Oh, did Buster get hurt?" Nick shouted. Buster, of course, was the small, gay, naughty, happy puppy.

"No, he didn't," said Jack. "And it's none of your business, anyway. You're visitors even if you are our cousins. And we'd planned about this long before you came."

"That's so," said Marian, who came up behind Jack, "if we want to have Buster's tail cut, it's no one's business but our own. It was just like you two to find out somehow."

"Going to have his tail cut?" gasped Nancy, and burst into tears.

"Yes, fox terriers look absurd with long tails," said Jack; "everyone says so. And, besides, he'll be all well in a week, quite well."

"And for the sake of a little style," said Nick, his teeth clenched tightly together, "you'd let that dog suffer for a whole week. I just wish I could cut off a part of your arm, that's what I do."

"The bones are soft," murmured Marian. "He'd look foolish with a tail, so everyone says."

"What do you care what everyone says?" screamed Nick; "you are two horrid, cruel children, and if you don't let that poor puppy, who has never done you any harm, and who is at your mercy, alone, we'll never be your visitors any more, and you'll never be friends of ours. We mean it, too."

And they did mean it, for they didn't care what anyone thought of them as long as they saved the puppy from being hurt.

But after Nick and Nancy had told Jack and Marian of the suffering it would mean for Buster, of course they didn't do such a cruel thing. They weren't really cruel, only they didn't know that such a thing hurt dreadfully. They had never been told the real truth, and they were glad they had heard it in time!

Fear of Mistakes.

Do not let the fear of making mistakes tie your hands. Of course we will make mistakes. No matter how excellent our purposes, it is inevitable that we should blunder. But every misstep should help to show us where the right path lies. Every mistake should teach its lesson. And as long as our mistakes [illegible]e growing less frequent and are n[illegible]peated, we should feel encourage[illegible]s' Companion.

"BAYER CROSS" ON GENUINE ASPIRIN

BAYER

"Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Always buy an unbroken Bayer package which contains proper directions to safely relieve Headache, Toothache, Earache, Neuralgia, Colds and pain. Handy tin boxes of 12 tablets cost but a few cents at drug stores—larger packages also. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.—Adv.

A man sometimes loses his head, but a woman never loses her tongue.

FOR SUMMER COLDS

Nothing gives quicker relief than Vacher-Balm.

It is harmless, and also relieves Nervous Headache quickly, and any superficial inflammation in a short time.

Try it for Mumps, Hay Fever, or any pain.

If you cannot buy it locally, send for a Free Sample, and Agent's terms, or send 50c stamps for 2 25c tubes.

Avoid imitations.

E. W. VACHER, inc., New Orleans, La.—Adv.

Matrimony is a great institution; it makes a man forget his other troubles.

SWAMP-ROOT FOR KIDNEY AILMENTS

There is only one medicine that really stands out pre-eminent as a medicine for curable ailments of the kidneys, liver and bladder.

Dr. Kilmer's Swamp-Root stands the highest for the reason that it has proven to be just the remedy needed in thousands upon thousands of distressing cases Swamp-Root makes friends quickly because its mild and immediate effect is soon realized in most cases. It is a gentle, healing vegetable compound.

Start treatment at once Sold at all drug stores in bottles of two sizes, medium and large.

However, if you wish to test this great prepa[illegible] & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

"Floral Ruffians."

Primroses, which are now adding to the color of London streets, were taken by Ruskin for his type of "flowers of gracious breeding," and they are invariably represented by poets as floral weaklings. This is strange, for it is all quite contrary to the facts in nature.

Primroses are really floral ruffians, to which they owe their "survival" in the fierce "struggle for existence" among wild flowers. They are hardy Alpine plants, found on mountainous heights throughout Europe and Asia, even on the highest ranges of the Himalayas.

They also seem to be rather poisonous, though alleged by Lord Beaconsfield to make an admirable salad. Except pigs, no animals will eat primroses. They bloom with impunity in a rabbit warren.—London Chronicle.

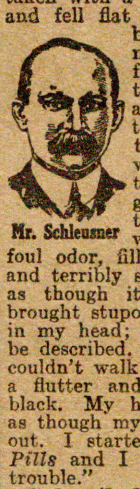
Paying Institution.

A recent report to the state department on business conditions in and around the municipaity of Bangor, England, stated that the cemetery was the only city institution which made money last year.

These consular reports, by the way, usually are masterpieces of anti-climax. In the most high-flown language they present the compliments of the consul to the "Honorable the Secretary of State" and then, freuently, beg to leave to inclose a clipping on the bean-bag blight in Patagonia, or some other tring if equal import.

COULD NOT SLEEP

Mr. Schleusner in Misery From Kidney Complaint. Doan's Gave Complete Relief.



Mr. Schleusner

"Heavy work brought on my kidney complaint," says Wm. Schleusner, 6408 Suburban Ave., Wellston, Mo. "One morning when shoeing a horse I was taken with a sudden pain in my back and fell flat on the floor. If I had been hit with a trip hammer, I couldn't have suffered more. I stayed in the house for five weeks and the pain was wearing the life out of me. At times, I couldn't get a wink of sleep because of the misery and I had to get up every few moments to pass the secretions that were highly colored, of foul odor, filled with sandy sediment and terribly scalding. My bladder felt as though it were afire. The pain brought stupor and a reeling sensation in my head; the torture of it cannot be described. If I got onto my feet I couldn't walk but felt dizzy and all in a flutter and everything would turn black. My head ached so it seemed as though my eyes were being dragged out. I started using *Doan's Kidney Pills* and I was soon rid of all the trouble."

Subscribed and sworn to before me.

ONE MAN THAT REALLY KNEW

Would Have Been Better for Jinks if His Fourth Friend Had Been First He Met.

First Friend—Hello, Jinks, that's a bad cold you have. Soak your feet in boiling water and drink a pint of hot vinegar and treacle. It's a sure cure.

Second Friend (a few moments later)—By Jove, Jinks, you ought to do something for that cold! Take a big dose of quinine—sure thing every time.

Third Friend (ten minutes later)—I say, Jinks, there's no use coughing yourself into the grave like that. Get a bottle of Cureitquick—stop it in ten minutes.

Fourth Friend—Got a bad cold, haven't you?

Jinks (after waiting some time)—Well, do you know a sure cure?

Fourth Friend (hoarsely) — No. There's no cure. Got a bad cold myself.—Pearson's Weekly.

The Lure of Conquest.

A Cleveland man ran away with a locomotive, and, when arraigned in court, told the judge: "I just wanted to see if I could boss an engine." Apparently the same line of thought which leads many men into matrimony.

Obvious.

"How do you know that he's a millionaire?"

"He eats."

Grape-Nuts
A Compound made of Wheat, Barley, Salt and Yeast.

GRAPE-NUTS

is a notorious knocker of ill-health! *TRY IT.* It contains the vital mineral elements and all the nutriment of wheat and barley.

PUBLIC ROADS

EQUIPMENT FOR ROAD WORK

Tractors, Rollers, Concrete Mixers and Other Implements to Be Returned From France.

(Prepared by the United States Department of Agriculture.)

At the request of the department of agriculture, the war department has ordered to be returned from France as soon as possible a large quantity of engineering equipment to be distributed by the department of agriculture, through the bureau of public roads, to the states for use in the construction and maintenance of federal aid highways. The equipment will be distributed to the states without charge, in accordance with recent legislation empowering the secretary of war to turn over to the secretary of agriculture surplus military equipment not needed for military purposes but valuable in highway construction work. The equipment will be apportioned on the basis of the allotments in the federal aid road act, in the same way that 20,000 army motortrucks are now being distributed by the bureau of public roads at the request of the state highway department.

The equipment which the secretary of war has been requested to return from France includes about 1,500 caterpillar tractors; about 400 road rollers, steam and gas driven; and a large number of concrete mixers, road graders, elevating graders, rock crushers, industrial locomotives, industrial railway track, dump cars, steam shovels, hoisting engines, electric motors, and quantities of smaller equipment.

In his letter requesting the return of this equipment the secretary of agriculture said:

"The highway construction program which the federal government and the states propose to begin immediately is the largest public undertaking contemplated in the near future. It offers an immediate field for the employment of labor and the use of materials that will help to stabilize business [illegible]ber of lines. The work has been expanded so suddenly that it has not been possible to make adequate provision for furnishing the necessary equipment, and previously all the available supply was absorbed by the demands of the war department. . . .

Traction Engines and Trains.

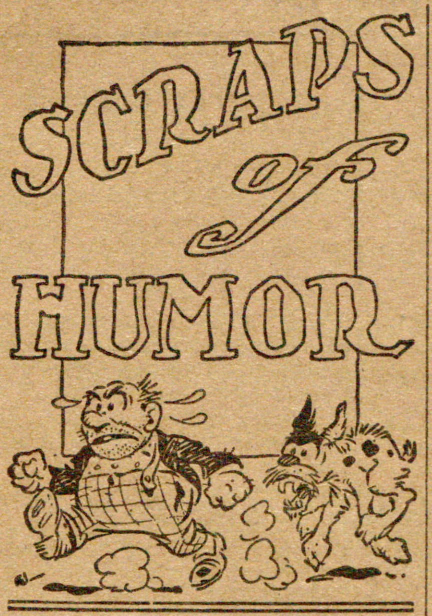
"I am sending you this list as a result of a conference which I have just held with the executive of the American Association of State Highway officials, at which it was represented that the various states are very anxious to secure additional equipment of the kind indicated.

"I am thoroughly in sympathy with the efforts that are being made by the war department to aid returning soldiers in securing employment, and I am convinced that, if the equipment and supplies listed are made available, it will facilitate highway construction and thereby stimulate the employment of labor."

GOOD ROADS HELP SCHOOLS

Before Improvement Average Attendance Was 66 in Eight Counties—76 Afterwards.

A survey made by the government of the effects of good road building on school attendance in eight counties shows that before the road were improved the average school attendance was 66, with 76 after the roads were improved.



She Had a Heart.

"I never expected to see it."

"What?"

"Two suburbanites fighting over a cook."

"Which won?"

"The smaller of the two combatants. The cook couldn't stand to see a little man getting the worst of it, so she signed up on the spot for three weeks."

Spared.

"Did you get an interview with that foreign celebrity?"

"Yes," said the star reporter. "And he shook hands with me cordially when I left."

"What did he do that for?"

"I suspect he was grateful because I didn't ask him what he thought of America."

Not His Business.

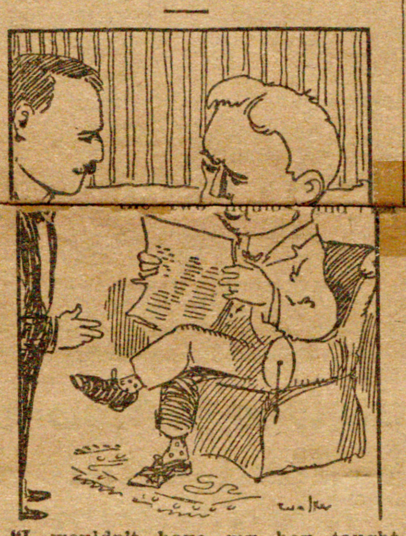
"Have you covered that story of Penman, the novelist?" asked the editor.

"I have not, sir," was the reporter's reply.

"Were you not told to cover it?"

"Yes, sir, but it was not my business to cover his stories. I'm not a bookbinder, sir."

A HANDICAP.



"I wouldn't have my boy taught grammar at all, if I had my way."

"That's a strange idea. Why not?"

"I intend that he shall be a writer of popular songs."

Overwhelming Erudition.

Unto a massive book I cling
With stout and patient hand.
The more I try to read the thing
The less I understand.

Uncertain.

"You haven't congratulated our friend on being elected to the legislature."

"Being elected to the legislature," said Senator Sorghum, "is more or less uncertain. Out my way it can mean either a good start in life or a poor finish."

Great Practice.

"Where did you learn such a curve?"

"Throwing paper wads around a girl's head to reach a boy sitting two seats in front."

Couldn't Stand It.

Mr. Speedem—Do you know what economy is?

Mrs. Speedem—Horace, where on earth did you hear such a vulgar expression? Don't ever let me hear that word again. It gave me quite a shock!

A Considerate Man.

Artist (angrily)—Why did you sky my "Portrait of a Gentleman"?

Hanging Committeeman—He looked like the sort of person who would feel more comfortable up there than down on a level with ordinary people.

Too Young for a Name.

"Name, please," asked Fred B. Akin, deputy city comptroller, of a colored woman who was getting a dog license.

"Why, I haven't named him yet," answered the woman. "He's only a pup."

Generous Admiration.

"You have some fine sirloin steak."

"Yes," replied the dealer; "remarkably fine. Shall I cut you a slice?"

"Oh, no. I merely stopped in to congratulate you."

Libby's
Veal Loaf

Choice bits of veal, creamery butter and fresh eggs combine with other tempting ingredients to give Libby's Veal Loaf its delicate, appetizing flavor. Order a package from your grocer today.

Every time you get a swelled idea about being popular try borrowing $20 for a cure.

Cuticura Soothes Baby Rashes.

That itch and burn with hot baths of Cuticura Soap followed by gentle anointings of Cuticura Ointment. Nothing better, purer, sweeter, especially if a little of the fragrant Cuticura Talcum is dusted on at the finish. 25c each everywhere.—Adv.

Sizing Up Father.

Little Johnny has a sister of whom he is very proud. His mother the other day heard him talking to the infant and this was what he said:

"It's too bad you can't go anywhere. You can't go to the movies; you can't go to see General Edwards. You haven't seen any big men at all—only uncle and father, and they ain't so very big."

How papa learned of the incident hasn't been disclosed, but it can be imagined that mother, for a while, had a large sized twinkle in her eye.

[illegible] an Exception.

The wife met her husband at the door on his return from his day's labor.

"Oh, George," she said, "we just had a visit from a black cat."

"That's nice," said hubby. "Black cats are lucky, you know."

"Yes; this one certainly was. He ran away with the steak I was going to cook for you!"

Not Necessarily Amused.

"Why does an audience in a theater invariably laugh when a comedian uses profanity on the stage?"

"American theater-goers are very obliging," answered the cynical man. "They know that's what the comedian expects them to do."—Birmingham Age-Herald.

A spoon with a strainer in its bowl to hold butter has been invented to butter corn on the cob neatly.

A contented wife doesn't stay contented long in a home without conveniences.

Important to Mothers

Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it

Bears the Signature of Chas. H. Fletcher

In Use for Over 30 Years.

Children Cry for Fletcher's Castoria

All Written by Women.

An Indiana teachers' federation has, much to some of the male members' chagrin, a woman for its president. Of course some of them try to show their superiority—particularly one who the other day was arguing that women knew so little about parliamentary drill that they were not fitted for the positions of superior offices.

The young woman listened, smiled and then said: "Well, I'm willing to learn."

Magnanimously the man offered to buy her a book on the subject. They entered a book store, made known their [illegible] the co[illegible] before them four books, saying that they were the only books on the subject she had. They began to examine them and lo—all four were written by women.—Indianapolis News.

Japanese Woman's University.

The New Universityfor women has been established in Japan. Among the subjects in the curriculum are moral science, Japanese, English and Chinese language and literature, natural science, mathematics, history, geography, domestic science, music, painting, floral arrangement, physical excercise Courses in horticulture, medicine, music, and art are contmeplated.

An honest doubter won't stay in the dark longer than is necessary.

BELCHING

Caused by

Acid-Stomach

Let EATONIC, the wonderful modern stomach remedy, give you quick relief from disgusting belching, food-repeating, indigestion, bloated, gassy stomach, dyspepsia, heartburn and other stomach miseries. They are all caused by **Acid-Stomach** from which about nine people out of ten suffer in one way or another. One writes as follows: "Before I used EATONIC, I could not eat a bite without belching it right up, sour and bitter. I have not had a bit of trouble since the first tablet."

Millions are victims of **Acid-Stomach** without knowing it. They are weak and ailing, have poor digestion, bodies improperly nourished although they may eat heartily. Grave disorders are likely to follow if an acid-stomach is neglected. Cirrhosis of the liver, intestinal congestion, gastritis, catarrh of the stomach—these are only a few of the many ailments often caused by **Acid-Stomach.**

A sufferer from Catarrh of the Stomach of 11 years' standing writes: "I had catarrh of the stomach for 11 long years and I never found anything to do me any good—just temporary relief—until I used EATONIC. It is a wonderful remedy and I do not want to be without it."

If you are not feeling quite right—lack energy and enthusiasm and don't know just where to locate the trouble—try EATONIC and see how much better you will feel in every way.

At all drug stores—a big box for 50c and your money back if you are not satisfied.

HAD AN EYE TO THE FUTURE

Farmer May Not Have Known Much About Music, but He Was a Bear on Economy.

A hard-working farmer in Ohio had sent his son to a good school of music so that he might receive the best instruction from the beginning. It was neceesary to buy a violin for him, but he was such a little chap that his teacher thought that a so-called "half violin" would do. The father, whose resources had been badly taxed, was loath to part with the money for the instrument, but finally did so.

The lad made rapid progress, and became so proficient that a half-violin was no longer good enough for him. Again he went to the music store with his father, to whom the salesman showed the entire stock of violins. The parent was apparently dissatisfied with all of them, and his gaze wandered around the shop seeking for something better. Finally he saw a violincello.

"We'll take that big violin there," said he, as a smile of satisfaction spread over his countenance. "The boy won't outgrow that right away."

Occasion for Jazzing.

The report that an early bather was seen executing the jazz dance on the beach at Ventnor seems to have some foundation. It appears that his partner was a large crab with well developed claws.—Punch.

The Trouble With Them.

"Some families," said Uncle Eben, "would be a whole lot happier if dey didn't keep tryin' to put too much jazz in 'Home, Sweet Home.'"

New Lenox

New Lenox is working up a reputation as a good live grain market. Willis Morris, the local grain dealer, is paying more for wheat than Lockport and surrounding towns with the result that he has received a large amount of excellent wheat from Homer township. The wheat is both winter and spring, and ranks high in quality.

The New Lenox camp meeting opened Thursday evening. The services have been excellent with many special features on the program, but the attendance has been small. Sunday was looked for as the big day, but a shower dampened the meeting. There was a fair attendance, however.

Saturday, August 30, will be Young People's day. The following program will be carried out: 8:30 to 9 a. m. morning watch, Rev. J. A. Foard; 10:30 a. m., Bible study, Rev. J. A. Matlack; 2 p. m., studier in stewardship; 3 p. m., Epworth league anniversary address, Rev. Thomas K. Gale; 7 to 8 p. m., Epworth league, Rev Thomas K. Gale; 8 to 8:15, song and praise, Rev. George Gable; 8:15 p. m., stereopticon lecture, "An Institutional Church at Work," Rev. Clyde King, former pastor of the New Lenox Methodist church.

Sunday, August 31, marks the close of the ten days' encampment. The following program will be given: 9:30 to 10:15 a m., "Love Feast," Rev. J. A. Lowery; 10:30 a. m., sermon, Rev. B. B. Evans, D. D., 1 to 2 p. m., Sunday school, George Francis, superintendent; 2:30 p. m., Rev. John Thompson, D. D.; 7 to 8 p. m., Epworth league, Rev. Thomas K. Gale; 8 to 8:15 p. m., song and praise, Rev. George Gable; 8:15 p. m., sermon, Rev. A. M. Pennywell.

Mr. and Mrs. John Mattes and Mr. and Mrs. Albert Braun, the latter of Mokena, motored to Springfield the past week to attend the state fair.

Farmers of New Lenox township are beginning to fill silos this week. The work will continue for a week or ten days.

Venerated Relic Lost.

The Black Rood was a relic brought to Scotland by the wife of Malcolm Canmore, and long held in extreme veneration by the Scots. It consisted of a cross of gold, inclosing a piece of the true cross, set in an ebony figure of Christ. It was deposited with the regalia in Edinburgh castle, and carried with them to England by Edward I, and used by him to give increased solemnity to the oaths he exacted from the Scottish magnates. All trace of it is now lost.

Potash in Bracken.

It is believed that the ash of bracken contains 40 to 50 per cent of soluble potash. The potassium occurs chiefly as sulphate and chloride.

Keep Doorknobs Tight.

Doorknob screws often work out and let the knob come off. This may be prevented by removing loose screws, covering them with glue and screwing them back into place.

First American Bridge.

The first American suspension bridge was erected in 1801 by James Finley across Jacobs creek, Westmoreland county, Pennsylvania. It had a span of 70 feet and cost $6,000.

Beware of the Flatterer.

"Flattery," said Uncle Eben, "is generally a scheme foh easy money makin', wifout even goin' to de trouble of fixin' up a gold brick or a satchel of green goods."

Famous French Ecclesiastic.

The Swan of Cambrai was Fenelon, archbishop of Cambrai, born in 1651 and died in 1715. Of him "The Catholic Encyclopedia" says: "With him disappeared one of the most illustrious members of the French episcopate, certainly one of the most attractive men of his age—one of the most attractive, brilliant and puzzling figures that the Catholic church has ever produced."

MATTESON

Friday morning Rev. J. A. Menkmann of Keosauqua, Ia., reported to Officer George Peterson that $150 worth of clothing had been stolen from his auto Thursday night while the car was standing in the Glaeser yards, the pastor and party having stayed over night at this place. No one knew the car was robbed until the next morning. The following clothes were stolen: Plain green silk suit, blue cloth dress, old rose silk dress with green stripes, blue silk dres, white dress, feather fur collar, underwear, and two pairs of white shoes.

The latter part of the week the Henry Partling and Stege families of Chicago motored to Hammond and enjoyed the bathing. On the return trip they were stalled due to several blowouts.

Bird Rebuked.

Marguerite was accustomed to being told by her mother to keep still when any grown-up person present was speaking. One day her mother was telling something interesting when a canary in the room commenced singing at its loudest. Marguerite climbed upon a chair to the cage and shaking her finger at the bird said in a commanding tone, "You keep still! Don't you hear my mamma talking?"

Lily Leaves as Rafts.

Down in the Madras district of India there are lilies that grow leaves of phenomenal size. Indeed, these leaves are several feet in diameter and have turned-up edges to form a shallow bowl which floats on the water. The buoyancy of these leaves is such that they will readily carry the weight of a small child, as shown in the accompanying illustration. This variety of lily is known as the Victoria Regia.—Scientific American.

Really [illegible] Problem at All.

The question of the weight of a fish in water was settled over 250 years ago. It is said that Ch[illegible]es II of England once asked for [illegible]ation of the problem as to why a pail of water should weigh no more after a live fish was placed in it than before. The reasons ascribed by scientists were many, but no definite conclusions were reached. Finally one man, more practical than the others, tried the experiment and discovered that the weight was increased just as much as the fish weighed.

Woman Rules Bhopal.

Bhopal, the second greatest Mohammedan state in India, has been ruled over by a woman for several generations.

No Difference in Degree.

Dorothy was very much interested in watching twin boys who sat across from her in the street car. They were peculiar-looking children, but also much alike in feature. At dinner that night she said, "Daddy, you ought to have seen those boys on the car today. One looked just exactly as bad as the other."

Laddie's Form of Exercise.

I was making a house-to-house canvass recently and as I turned in at one house I noticed a small boy and his dog, but the dog no sooner noticed me than he came bounding towards me, barking loudly. "Don't be afraid," called the lad, "Laddie won't bite; he is just exercising his bark."—Chicago Tribune.

Ingenious Excuse.

Billy's mother was particular that he should say his prayers upon bended knee before retiring, and one cold night she was surprised to find him already in bed when she stepped in his room to hear him repeat his prayer. "Why, son, you haven't said your prayers," she began, but he interrupted her: "Oh, yes, mother, I have; I said them in bed, but I got in just as uncomfortable position as I could."

Saving's Silly; See This.

"Rotten policy to save! Fatal to save! Find out when it's too late, don't want what you've been saving for—outgrown your impulses. Buried with your bank book and every one glad you're dead. No—no. Spend while you're young. Get a hold on all the friendship and all the love within reach—and then, why then, when you're old, at least memories will be yours as comforters."—"Our Wonderful Selves," by Roland Pertwee.

CHOOSING BEST BREED OF HOGS

Whichever One the Farmer Decides Upon He Should Develop to Highest Standard.

LARD TYPE MOST POPULAR

At Present Time Animals Weighing From 175 to 250 Pounds Command Highest Prices—Bacon Hog Is Not Raised Extensively.

(Prepared by the United States Department of Agriculture.)

There is no best breed of swine. Some breeds are superior to others in certain respects and one breed may be better adapted than another to certain local conditions. The essential point is that after the farmer has once decided upon the kind of hog to raise he should stick to this decision and develop the chosen breed to its highest possible standard. It is not feasible for one individual to raise several different breeds and bring them to perfection. In making his choice, too, the farmer should be guided by the kind of breeds already established in his locality. If he selects one of these he is not likely to make a mistake.

Two Types of Swine.

There are two distinct types of swine, namely, the lard and the bacon types. Swine of the lard type far outnumber those of the bacon type in the United States. The lard type is preferred by the people of this country, consequently the majority of feeders produce a rapid-fattening, heavy fleshed lard type. The bacon type is not raised extensively in the United States. The production of choice bacon is more general in those sections where the feed of the hog is more varied and where corn is not relied upon as the principal grain for hogs.

Purebred Poland-China Barrows.

The principal breeds of the lard type are the Poland China, Berkshire, Chester White, Duroc Jersey and Hampshire. The lard type of hog is low set and compact, with a very wide and deep body. The shoulders should be full although not coarse, with full hind quarters and hams carried out straight to the tail and thickly fleshed down to the hock. The flesh should be thick and evenly distributed throughout the body.

The size and weight are largely determined by market conditions. At present pigs weighing from 175 to 250 pounds ordinarily command the highest prices.

Best Bacon Types.

The principal breeds of the bacon type are the Tamworth and large Yorkshire, both of British origin. The bacon type is very different from the lard type, being longer in leg and body, with less width of back and lighter in the shoulders and neck. The first impression that this type conveys is one of leanness and lankiness. Much emphasis is laid on the development of side, because it is the side of the hog that is used for the production of bacon. On the other hand, large, heavy hams are not desirable on a bacon hog.

GRAIN CONSUMPTION VARIES DURING YEAR

Feeding of Oats Is More Uniform Than That of Corn.

Barley, Wheat and Rye Approach Monthly Uniformity in Degree Less Than Oats—Silage Reaches High Point in February.

(Prepared by the United States Department of Agriculture.)

Whether the supposition is that the consumption of corn by live stock on farms in the United States varies little from month to month, or that the summer consumption is relatively small, the fact, as ascertained by the bureau of crop estimates, United States department of agriculture, is that during the six months from May to October nearly three-eighths of the year's corn ration is eaten, and from November to April five-eighths. The warm-weather fraction will seem large or small according to the size of the guess. Oats, more than corn, is the feed from April to September, and the monthly consumption of oats is more uniform throughout the year than that of corn. Barley, wheat and rye approach monthly uniformity in degree less than that of oats throughout the year and a concentration of consumption in the colder months is found in hay, silage and mill feed, as in the case of corn.

Of the year's entire consumption of corn by live stock on farms the highest consumption in one month is 11.5 per cent in December, and the lowest 4.6 per cent in August. For oats the highest is 9.8 per cent in April and the lowest 6.8 per cent in December; barley, highest 10.9 per cent in November and lowest 6 per cent in June and also in July; rye, highest 10.3 per cent in October and lowest 7.1 per cent in July; wheat, highest 11.4 per cent in November and lowest 5.8 per cent in July.

Mill feed consumption sags to 4.8 per cent in July and rises to 11.5 per cent in February and again in March. More unequal yet is hay consumption, with its range from the highest, 14.2 per cent in February and also in March to 3.2 per cent in August; and another degree is reached by silage, the consumption of which rises to 16.8 [illegible] and falls to 1 per cent in July and again in August.

SCATTER GRAINS FOR FOWLS

Not Considered Good Practice to Feed in Troughs—Domineering Hens Get Too Much.

Never feed whole grain in a trough. When so fed there will be domineering hens which will get more than their share, but when the grain is scattered each hen must seek her portion, and all will have an equal chance. You need not fear to scatter it over every square inch of ground, for not a grain will be wasted. It compels the hens to work instead of helping themselves.

PREVENT DISEASE OUTBREAKS

Use Every Preventive Measure and See That Proper Precautions Are Taken.

(Prepared by the United States Department of Agriculture.)

Sometimes we cannot prevent outbreaks of live stock diseases on our farms, but we can and should always use every preventive measure and see that proper precautions are taken when the disease first makes its appearance.

Sheep and Goats.

Sheep and goats would prove their right to a place in profitable farming if allowed recognition on some farms.

LICENSED INSPECTORS GRADE ALL GRAIN IN INTERSTATE OR FOREIGN SHIPMENT

Grain Sampler Obtaining Samples of Wheat in a Car.

(Prepared by the United States Department of Agriculture.)

A large percentage of the wheat delivered at the terminal markets for interstate or foreign shipment is placed in the highest grades of the federal grain standards by grain inspectors licensed by the United States department of agriculture. Duluth and Minneapolis are two of the largest terminal wheat markets in the country. Between January 15, 1918, when the revised federal grades became effective, and December 31, 1918, more than 40,000 cars of hard red spring wheat were inspected at Duluth, of which nearly 85 per cent was placed in grade No. 1. At Minneapolis nearly 50,000 cars were inspected, of which more than 70 per cent [illegible] in grade [illegible]

When a farmer sells [illegible] the local elevator, a grade is placed upon it usually by the elevator manager and not by a licensed inspector of the federal government, because few such inspectors are located at country points. Unless the grain is ground at the local mill, it is finally shipped to a terminal market, where it is graded by a disinterested inspector who is licensed by the secretary of agriculture. In deciding the grade the inspector uses the grades established by the United States department of agriculture, which are often referred to as the federal grades.

Enforcing Grain Standards Act.

In enforcing the grain standards act, the authority of the federal government reaches only shipments of grain in interstate commerce—from one state to another—or to foreign countries. The department can not control the country buyer or elevator man, nor the miller who buys grain on the spot, for such transactions usually are not interstate. While these buyers may use federal grades, the grading is not under the jurisdiction of the department. If they do not assign the grades fairly and accurately, only the state officials can reach them. The licensed inspectors, however, are under the control of the department. Such inspectors are not allowed to continue to inspect unless they are competent. If anyone is employed in an elevator or mill or has any connection with the buying or selling of grain he can not secure a license to inspect grain, and if he does not do satisfactory work his license may be suspended or revoked.

Practically all the grain from Minnesota and North Dakota, and a large part of that from South Dakota, is eventually shipped to either Minneapolis or Duluth and it is there graded by licensed inspectors. With the exception of durum, practically all of the wheat produced in the territory mentioned is hard red spring. This kind of wheat is divided into three subclasses or divisions, according to the percentage of dark, hard and vitreous (flinty) kernels. For bread-making purposes it is generally believed that flour from wheat containing a large percentage of the dark, hard and flinty kernels is superior because [illegible] stronger, more elastic, and more [illegible] character that has given the spring wheats of the Northwest and the hard winter wheats of certain sections of the Southwest their enviable reputation in the world's market, and is responsible for the almost universal premium millers are willing to pay for these wheats in normal times.

The subclasses for hard red spring wheat are: Dark northern spring, containing 75 per cent or more dark, hard and flinty kernels, and not more than 10 per cent or less of humpback; northern spring, which contains less than 75 per cent and more than 25 per cent dark, hard and flinty kernels, and not more than 10 per cent or less humpback; red spring, which contains 25 per cent or less dark, hard and flinty kernels, or more than 10 per cent humpback.

Of the 41,711 cars of hard red spring wheat received and inspected at Duluth during the last half of 1918, 14,646 cars, or 35.1 per cent, were classed as dark northern spring; 25,897 cars, or 62.1 per cent, were classed as northern spring; and 1,168 cars, or 2.8 per cent, were classed as red spring.

There are six grades numbered from 1 to 5, the sixth being called the sample grade. Of the hard red spring wheat received at Duluth, 84.4 per cent was placed in grade No. 1, and 8.3 per cent in grade No. 2, making more than 90 per cent graded No. 2 or better. For the same period 49,252 cars were inspected at Minneapolis, 71.9 per cent of the cars being placed in grade No. 1, and 14.3 per cent in grade No. 2.

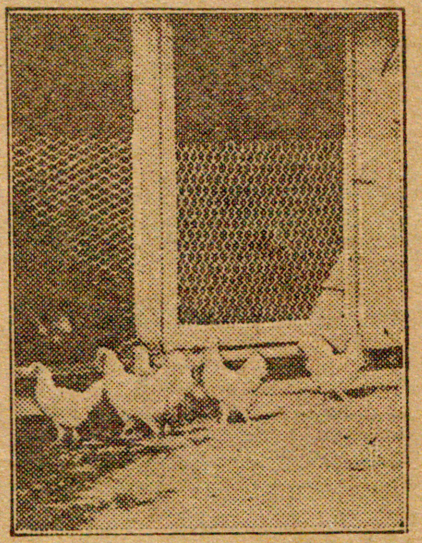
FARM POULTRY

CONSTRUCTION OF HEN HOUSE

More Fowls Can Be Kept on Small Floor Area Under Colony Than on Intensive System.

(Prepared by the United States Department of Agriculture.)

A house constructed for the convenience of the attendant will have enough cubic air space provided 2 to 5 square feet of floor space is allowed per fowl. Fresh air should be secured by ventilation rather than by furnishing a larger amount of cubic air space than is required for the convenience of the attendant. The necessary amount of floor space depends upon the system, on the size of the pens, the weather conditions, and the size of the birds. More birds can be kept on a small floor area under the colony than on the intensive system, where the colony system is used in a mild climate and the hens have free range throughout most of the year. Colony houses holding from 30 to 75 hens are about as large as can be easily moved, but larger numbers may be kept in one flock in a long house. Flocks of from 60 to 150 are well adapted to the average conditions for [illegible] Large numbers require less [illegible] fewer fences, and a lower house cost than small flocks, but there is a greater chance for disease and the individual hen receives less attention.



An Open-Front Poultry House Keeps Hens Healthy.

TEN WAYS TO PREVENT LOSS

First, Select Pure Breeds That Lay More and Larger Eggs—Collect Eggs Frequently.

(Prepared by the United States Department of Agriculture.)

1. Selecting pure breeds that lay more and larger eggs, such as the White Leghorns, Wyandottes, Plymouth Rocks, Rhode Island Reds, Orpingtons, etc.
2. Giving better care, food, and shelter, with dry, clean, vermin-proof nests.
3. Confining males except in breeding season.
4. Collecting eggs frequently, especially in hot or muggy weather.
5. Storing eggs in a dry, clean, cool place.
6. Using small and dirty eggs at home.
7. Marketing frequently, with protection at all times from heat.
8. Selling for cash on a basis of size and quality, "loss off" instead of "case count."
9. Using an attractive package.
10. Combining shipments as a matter of economy.

POULTRY NOTES

Provide a nest for each 4 or 5 hens.

* * *

Feed table and kitchen waste to the hens.

* * *

Cull out weak or slow growing chicks.

* * *

Give a light feed of grain in the morning.

* * *

Be sure chicks do not become crowded.

* * *

Keep standard-bred poultry. It is more profitable.

* * *

Early hatched chicks live better, grow better, and the pullets make fall and winter layers.

* * *

Build substantial, comfortable poultry houses, but make them as inexpensive as possible.

COMMUNITY LIME SPREADER

Farmers of Otsego County, N. Y., Solve Problem of Spreading Lime at Proper Time.

(Prepared by the United States Department of Agriculture.)

Members of the farm bureau in one of the communities of Otsego county, New York, have combined and purchased a lime spreader, and have thus taken a long step in solving their problem of applying lime at the proper time of the year and in sufficient quantities to get results. The spreader is to be rotated among the members. Nonmembers may also use it by paying 25 cents an acre. In the early stages of the use of lime in a community, especially in a small way, spreaders are often not available because single land owners hesitate to purchase them. Even after the use of lime is established a single machine will often meet the needs of several farmers.

Community Ownership of a Lime Spreader Is Practical and Feasible.

Sowing Seed for Trees.

Sow the seed of early ripening trees, such as elm and maple, as soon as the seeds are ripe. Stratify late ripening seeds in sand or sawdust so that they may not dry out.

LEAF SPOT HARMS LEGUMES

Fungus Which Causes Disease Lives Over Winter on Dead Leaves—Two Characteristics.

(Prepared by the United States Department of Agriculture.)

Common alfalfa leaf-spot and red clover leaf-spot are similar in appearance but are caused by two distinct fungi, says a specialist of the United States department of agriculture who has published the results of studies of alfalfa and clover leaf-spots in Bulletin 759.

The fungus which causes alfalfa leaf-spot lives over winter on dead leaves which escape decay. There are two characteristics of leaf-spot caused by this particular fungus which usually serve to distinguish it from spots caused by other fungi. One is the circular shape and small size of the spots, and the other is a small raised disk in the center of the fully developed spot.

The disease is one of the most serious and widely known of those which attack the foliage of alfalfa. It causes greatest loss during wet weather, and cases have been reported where it has destroyed half of the alfalfa crop.

Little is known of the method by which fields become infested. Efforts to exclude the disease from alfalfa fields in localities remote from other alfalfa by the surface sterilization of the seed have given no success. Evidently, in these experiments at least, the department pathologist says the fungus was not carried on the surface of the seed—probably not with the seed at all. The source of infestation in such fields still furnishes an interesting problem.

EXERCISE IS VERY ESSENTIAL

Pastures Are Necessary for Proper Growth and Development of Little Porkers.

Exercise is very essential for the sow and the pigs. Pens do not give the animals a chance to take enough exercise. Pastures are required for the growth and development of pigs.

THE KITCHEN CABINET

He who hath never warr'd with misery,
Nor ever tugg'd with danger and distress,
Hath had n' occasion nor no field to try
The strength and forces of his worthiness.

SUNDRIES.

A new design for an old product is quite worth while, especially in food.

Camouflaged Kidneys.—Skin and clean (cutting out the white) four or five lamb or pigs' kidneys; cut into cubes and fry in oil or butter quickly; season with chopped parsley, salt and a sliver of garlic. It will take about five minutes. Just before taking up add a tablespoonful of vinegar; let it boil up and serve on toast.

Rabbit Saute.—Clean and cut up a rabbit; dredge with flour and sprinkle with salt. Put into a frying pan with two tablespoonfuls each of chopped onion and drippings; cook gently until brown. Cover with three cupfuls of stock, add a dozen small onions, a bit of bay leaf, blade of mace, six mushroom stems and a teaspoonful of tarragon vinegar. Cook one hour, or until tender. Remove the onions and rabbit and strain the stock. Cut half a pound of ham in strips and cook in a frying pan with the caps of the mushrooms. Add twelve ripe olives, the onion and rabbit and the strained sauce. Bring to the boiling point and season highly. Put the rabbit in the center of a platter, arrange mushrooms, olives, ham and onions in piles around the rabbit and pour the sauce over all.

Mock Roast Chicken.—Take one pound of the shin of veal, two ounces of salt pork, one tablespoonful of chopped onion; mix thoroughly with one and one-half teaspoonfuls of salt, pepper and one-half cupful of milk. Line a mold with two-thirds of the mixture. Put o[illegible] bread crumbs and [illegible] in a saucepan and stir over the fire until thick. Add one teaspoonful of salt, a little pepper and one teaspoonful of poultry dressing, with two teaspoonfuls of chopped onions. Mix well and put in the center of the mold. Cover with the remaining veal mixture and strips of salt pork. Bake half an hour; invert the mold on a pan, surround with six potatoes cut in strips, and roast until the potatoes are tender, basting frequently with the gravy in the pan.

Dried mushrooms may be soaked several hours in cold water, then used in sauces as the fresh. Cook until tender in the water in which they are soaked and save it for flavor for soups and sauces.

Faith, absolute, unconquerable faith, is one of the essential concomitants, therefore one of the great secrets of success. We must realize that one carries his success or failure with him, that it does not depend upon outside conditions.—Trine.

A SIMPLE DINNER.

The idea of a simple dinner is one that is reasonable in cost, appetizing enough to be attractive and not too much work to prepare.

Seasoned Cabbage With Meat.—Cut a medium-sized cabbage into halves and let it stand an hour in cold water to remove insects, if any. Into a saucepan put one sliced onion, a slice or two of bacon and cook together until the bacon and onion are fried. Add the cabbage, and water to cover, season with salt and cook until the cabbage is nearly tender. Add a few well-washed frankforts and let them boil a few minutes. Serve the cabbage neatly arranged in halves with the sausages over the top.

Rice Cooked in Chicken Stock.—Cook rice until nearly tender in water then add enough chicken stock to season well and finish cooking. Serve as a vegetable.

Cottage Cheese and Peanut Salad.—Mix a half cupful of peanuts, which have been shelled and put through the meat chopper, using the coarse cutter, with a cupful of seasoned cottage cheese. Make into balls with a spoon and serve on lettuce.

Steamed Oat Bread.—Mix two cupfuls of rolled oats, ground; one cupful of corn flour, two and a half teaspoonfuls of baking powder and two teaspoonfuls of salt. Add two cupfuls of milk, two eggs, two tablespoonfuls of melted shortening and one-fourth cupful of corn sirup. Steam in baking powder cans two hours or bake in greased muffin pans.

Rhubarb Pie.—Take one and one-half cupfuls of chopped rhubarb, one cupful of sugar, one tablespoonful of flour and a half teaspoonful of salt; mix with two tablespoonfuls of water and cook until thoroughly hot and the rhubarb nearly soft. Cool and add two egg yolks, turn into a pie tin lined with good pastry and bake in a hot oven at first then slowly until the filling is thick. Cover with a meringue, using the whites and two tablespoonfuls of powdered sugar. Add a few quarters of marshmallows over the top and brown.

'Tis not in battles of youth we train
The governor who must be wise and good,
And temper with the sternness of the brain
Thoughts motherly, and meek as womanhood.
Wisdom doth live with children round her knees.

VARIOUS AND SUNDRY THINGS.

The secret of successful sponge cakes is in the beating of the eggs and the care not to lose the air incorporated when stirring in the flour. Then the "baking oven judgment never comes to some women in the course of their lives," says Kate Douglas Wiggin.

It is as unreasonable to suppose all women gifted in being good cooks as it would be to expect them to be musicians or artists. Because the majority of women are by necessity housekeepers, it does not follow that they are by that necessity doing the work for which they are especially qualified.

In these days of thin cream which refuses to whip, a solution called viscogen will be useful, which may be made at home and kept indefinitely if well stoppered. Take five ounces of sugar and dissolve in ten ounces of water. Add six ounces of cold water to two ounces of quicklime and let it gradually slake; then strain through a fine sieve, to remove unslaked particles. Combine the two liquids and shake occasionally for two hours. In three hours set the mixture aside to settle, then siphon or pour off the clear liquid. Store in small bottles tightly corked, as the liquid absorbs carbonic acid from the air, thus darkening the color and reducing the strength. Keep either in a dark bottle or wrap the bottle in dark paper. Use one-fourth of a teaspoonful of the viscogen to three-fourths of a cupful of cream, well chilled. Stir well, then beat with an egg-beater as usual.

A part of what we might term the optimist's philosophy is: If you can mend a situation mend it; if you can't mend it, forget it. Is it a good philosophy or is it foolishness?

HELPFUL SUGGESTIONS.

If the dishes in which ice cream or frozen dishes are served are chilled in the refrigerator the problem of melting ices is practically solved.

Salads, too, should be served on cold plates to avoid wilting.

Frozen dishes molded in melon molds should be served sliced in pie-shaped pieces, cutting from the center of the mold. Serve at once on cold plates.

Cream is whipped enough when the egg beater leaves its print in the beaten cream. Longer beating will often cause bits of butter to form in the cream.

Flour that has been sifted several days should always be resifted when ready to use. If a cupful of flour is called for in a recipe do not dip the cup into the flour, but fill it lightly with a spoon. All recipes in the modern books call for level measurements of all ingredients.

Sweet milk may be soured instantly by adding two teaspoonfuls of vinegar to a cupful of milk.

The usual recipe serves six people amply. By cutting down the ingredients to halves or thirds it suits the needs of a small family. If fortunate enough to have a large one double the amounts.

In making French dressing use half lemon juice and half vinegar or dilute the vinegar with water or fruit juice, using three times as much oil as acid.

A convenient way of making the dressing is to put all the ingredients into a fruit jar and shake until it thickens and then it is ready to use at any time with a few preliminary shakes, and will keep indefinitely in a cool place.

NEW HATS FOR AUTUMN WEAR

Information That May Lead to Prospective Buyer Making a Wise Decision.

TAM KEEPS ITS POPULARITY

Feather Trimming Is Employed on Model That Almost Every Woman Can Wear With Good Effect—Some Effective Turbans.

What can stimulate interest in fashion at this season of the year like a little glimpse at new hats? For hats are always interesting and hats are the first new thing a woman buys at the beginning of a new season.

In fact, we buy new hats regardless of seasons and wear them, too, without consideration for their fitness for a particular season; straw hats in January, velvet in July.

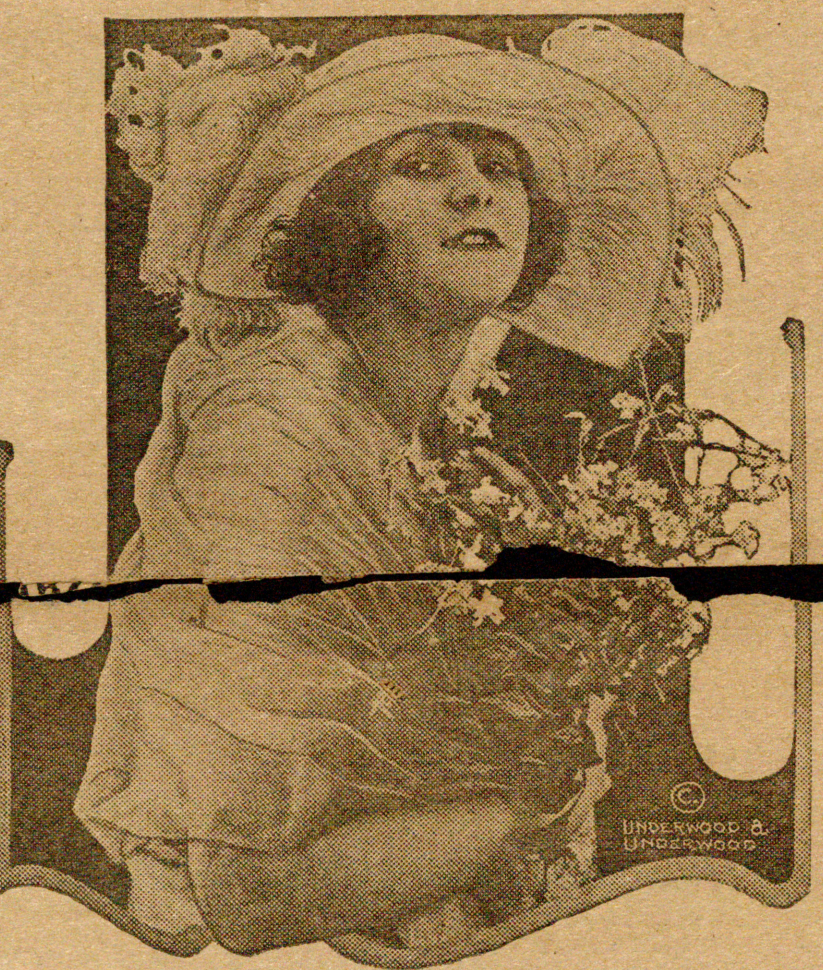
And there are velvet hats and others, advanced models to excite your curiosity, stimulate your interest and help you to decide your first new autumn style.

And my! what a good effect a new hat has upon the average woman, both from the material aspect of a pleasing appearance and the less tangible ways mars the poise and the walk and prevents the absolute attention to the conversation of a companion, the giving of the entire interest to the pleasure at hand that makes folks say: "There is an attractive and likable girl," the opinion of friends and acquaintances that establishes a girl as a favorite.

There is never a season when some form of the graceful and generally becoming tam is not in vogue and this will be the case this season as in all others. There is one style especially attractive, a between-seasons tam on new lines and interestingly developed, of taffeta and soutache braid in two colors, to say nothing of an effective feature trimming that lends the last note of smart fashion to this time-established model.

One excellent quality of the tam shapes is that almost every woman can wear one, all young girls can and most women of more mature years, provided they select the right model.

Strikingly unusual is a hat of velvert with trimming of glycerin ostrich in a sort of shower effect over the upturned brim. This may seem an extreme model, not so much in shape as in this arrangement of a popular trimming. And while not every woman can wear this hat or want to, nevertheless it portrays a certain new and



This New Bonnet Is as Gay and Charming as the Month of Flowers, With Tender Pink and White Buds. The Hat Is a Creation of Pink Georgette and Dancing Blue Ostrich Feathers That Curl and Cling to the Unusual Shape.

but nevertheless definite aspect of mental stimulus, of renewed interest in life in general, comments Edith M. Burtis in the Philadelphia Ledger.

Sometimes, as is usually the case with children, a woman treads life's path more gayly when she puts on new shoes, but more generally it is a new hat that helps over a period of mental depression, of world weariness, of disinterest, for hats don't hurt and new shoes do, more's the pity.

Let me depart from the subject in hand, new hats, just long enough to ask why do so many girls foolishly buy shoes just a little too tight?

Many Ills From Tight Shoes.

This practice does not improve the appearance of the feet; rather is the effect deteriorating and the discomfort one suffers often distorts the face, al-interesting feature of autumn millinery that you should be glad to note.

Quite the reverse from the extreme fashion standpoint, yet nevertheless smart, despite its conservative tone, is the becoming turban of rich brocade, velvet and tiny ostrich tips, artistically combined. This hat illustrates still another use of ostrich, the regulation small curled tips. Not so new a treatment of ostrich but always a pleasing and satisfactory one, especially if one takes advantage of the modern process of shower proofing that insures the beauty of the feather against all moisture whether a fog or rain.

If you are not familiar with this very commendable innovation in apparel insurance ask your milliner about it or the shop where you buy feathers for the hat you trim yourself.

Model for Autumn.

Another new autumn hat, like most of the new models, is of velvet, turned up sharply in the front and trimmed only with a rich cluster of silk flowers and foliage. It is an excellent model for first choice in the development of your autumn wardrobe, for it can be worn now—right now—and that's what most of us want to do with new things.

A costume that has been much admired is a simple, dignified dinner gown of charmeuse, with underskirt of contrasting color, simply trimmed with ribbon in two widths and colors, modeled after the beautiful lines of the early Greek costume. This is the sort of gown that is not dependent upon any whim of fashion for its acceptance. It is the kind of gown that can be worn until it is worn out, and this is a feature that appeals to many women not entirely from the standpoint of economy, but because many of us must be well acquainted with our clothes before we are quite comfortable with them. Like old acquaintances, we must feel that our clothes wear well and not from the standpoint of actual wearing service, but from that of presenting us in the best possible light, of helping us appear at our best.

BLOUSES IN WIDE VARIETY

Wash Fabrics Figure Prominently Among Materials Employed—Pendant Decorations Highly Favored.

The shops are really alluring in their display of overblouses in fabrics and styles suitable for summer wear. It is perhaps an interesting thing that wash fabrics have been made to serve so admirably for these blouses—for there was a time when it seemed that only chiffon and georgette and soft crepe would do for them.

But now linen, organdie, batiste, ratine—lots of ratine, too, which is another of those interesting evidences of a return to favor of a fabric or style that has seemingly gone by—all these and other summer fabrics, heavy, homespun, crashlike-looking things, are used for the overblouse.

One thing that marks many of the blouses is little tassels and hanging buttons and fringe. There are all sorts of these pendant decorations, from sleeve ends and hems and just hanging down from any other part of the blouse itself.

THE JOY OF MOTHERHOOD

Came to this Woman after Taking Lydia E. Pinkham's Vegetable Compound to Restore Her Health

Ellensburg, Wash.—"After I was married I was not well for a long time and a good deal of the time was not able to go about. Our greatest desire was to have a child in our home and one day my husband came back from town with a bottle of Lydia E. Pinkham's Vegetable Compound and wanted me to try it. It brought relief from my troubles. I improved in health so I could do my housework; we now have a little one, all of which I owe to Lydia E. Pinkham's Vegetable Compound."—Mrs. O. S. JOHNSON, R. No. 3, Ellensburg, Wash.

There are women everywhere who long for children in their homes yet are denied this happiness on account of some functional disorder which in most cases would readily yield to Lydia E. Pinkham's Vegetable Compound.

Such women should not give up hope until they have given this wonderful medicine a trial, and for special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of 40 years experience is at your service.

GREEN'S AUGUST FLOWER

In the good old summer time when fruits of all kinds are getting ripe and tempting, when cucumbers, radishes and vegetables fresh from the garden are too good to resist, when the festive picnic prevails and everybody overeats and your stomach goes back on you, then is the time for "August Flower," the sovereign remedy for tired, overworked and disordered stomachs, a panacea for indigestion, fermentation of food, sour stomach, sick headache and constipation. It gently stimulates the liver, cleanses the intestines and alimentary canal, making life worth living. Sold everywhere. Adv.

Mirth is a paying investment—because its stock is never watered with tears of regret.

AS YOUNG AS YOUR KIDNEYS

The secret of youth is ELIMINATION OF POISONS from your body. This done, you can live to be a hundred and enjoy the good things of life with as much "pep" as you did when in the springtime of youth. Keep your body in good condition, that's the secret.

Watch the kidneys. They filter and purify the blood, all of which blood passes through them once every three minutes. Keep them clean and in proper working condition and you have nothing to fear. Drive the poisonous wastes and deadly uric acid accumulations from your system. Take GOLD MEDAL Haarlem Oil Capsules and you will always be in good condition. You will feel strong and vigorous, with steady nerves and elastic muscles. GOLD MEDAL Haarlem Oil Capsules are imported direct from the laboratories at Haarlem, Holland.

They are a reliable remedy which has been used by the sturdy Dutch for over 200 years, and has helped them to develop into one of the strongest and hearthiest races of the world. Get them from your druggist. Do not take a substitute. In sealed packages—three sizes.—Adv.

Mean Betrayal.

Origin of Specie.

Mrs. Wayup—"Whence did Mrs. de Style get her new hat?" Mrs. Blase—"That's a problem. She bought it with the money which her husband borrowed from her uncle, who had won it in a poker game from her brother, to whom she had loaned it shortly after her mother had taken it from her father's pockets and given it to her for a birthday present."

Frankfort

Frank Folkers and family, Mr. and Mrs. Henry Deust and daughter, Miss Pearl, and Miss Viola Lankenau motored to Starved Rock last week.

Edward Warning underwent an operation for appendicitis at Silver Cross hospital, Joliet, last Sunday. He is expected home this week. William Harnack, son of Mr. and Mrs. John Harnack, was operated on for removal of tonsils and adenoids the past week. On Wednesday the two little sons of Charles Eggerts were operated on for tonsils and adenoids. On Thursday two daughters of Jerry Jansen were operated on for tonsils and adenoids. On Friday Alfred and Lloyd Widop of Plainfield, formerly of Frankfort, were also operated on for tonsils and adenoids. All these operations were performed by Dr. W. V. Hedges of Frankfort at the Silver Cross hospital, Joliet.

Born to Mr. and Mrs. George Brandau on Friday a nine-pound son.

A rattling good ball game was played between the Manhattan and Frankfort ball teams Sunday at Folkers' diamond, Frankfort. The playing was swift from the opening inning and gripped the attention of the fans throughout the game. Some excellent playing was done by both sides.

Orland

Orland, Aug. 28.—The good roads meeting held last Monday night at the Wagner grove has created much interest in the movement on foot to place the question of a $5,000,000 bond issue on the ballot to be voted on September 10. It is planned to connect up all the Cook county villages with concrete roads. A concrete road is proposed to be built from Goeselville to Orland village. Another concrete road is to be built along Bachelor Grove road to Tinley Park. Many other roads are to be built. The good road boosters are active now in getting all support possible to swing the $5,000,000 bond issue at the election in November.

Tinley [illegible]

The Tinley Park public school will open Tuesday, September 2. Miss Bagnell and Miss Jergenson have been retained as the teachers for the full term. A piano has been purchased by the school board for the room of Miss Bagnall.

The Sewing club of the Tinley Park school has arranged to start a school library.

A large company of friends called on Mrs. Henry Wilkie Thursday unexpectedly to assist her in celebrating her birthday anniversary. A delightful afternoon was spent.

Rev. Ladwig, pastor of the German Methodist church, is attending the conference in session in the Second German Methodist church in Chicago this week. The conference started August 27, and will continue through to August 31. Rev. Mr. Ladwig has been pastor here for eight years, during which time he has worked up a splendid record. When he took charge of the congregation here his average attendance was 42 members. Now the average attendance is 84 members each Sunday. In fact, all the various departments of this church are in a flourishing condition and the members have unanimously asked for the return of Rev Mr. Ladwig. Bishop Thomas Nicolason is in charge of the conference

Value of Herbs in Cookery.

The old-fashioned kitchen garden was not considered complete without its small collection of "pot herbs"—sage, thyme, and other medicinal and savory herbs. French cooking is noted for its fine flavor, and this is largely because French cooks excel in the skillful use of herbs.

Haiti a Stricken Country.

Haiti's many revolutions have sadly interfered with the normal life of the people. On the trails of the country districts one passes a never-ending stream of women—mile after mile and nothing but the female of the species—most of them with baskets on their heads.

Japanese Use of Seaweed.

It is estimated that 600,000 Japanese are employed in the seaweed industries, using the weed in the manufacture of such diverse objects as policemen's boots, picture frames, marbled floors, and electric switchboards. They have even found a substitute for cotton in a seaweed called "Sugamo."

Soft Wood Good Fuel.

The idea that hard wood is any better than soft for fuel has been found erroneous.

Folkers Brothers
FRANKFORT, ILL.
MEATS, FRUIT & VEGETABLES

Rolled Boneless Corn Beef 30c lb.
Good Lnck Oleo Margarine 45c lb.
Choice American Cheese 40c lb.
Choice Cream Cheese 40c lb.
Full line of fruit for Saturday

Green Garden

Green Garden, Aug. 28.—Thieves have been making raids on farms in this section the past week. During the past two weeks two raids were made on the Ernest Miller farm and about 12 little pigs were stolen. At both times only the children were at home. They heard the pigs squealing but were afraid to go out in the yard. They telephoned for help, but by the time the neighbors got to the farm the thieves had disappeared with the pigs. Mr. Miller says he is going to have bloodhounds put on the trail of the thieves if he suffers another raid.

The thieves who are raiding Green Garden farms are using autos to make a quick getaway. One night last week George Brandau was awakened by the furious barking of his dog and the quawking of his geese. He got up, grabbed a shotgun, and went out in the farm yard. His dog headed for the corn field. A strange dog showed up in the yard, but Mr. Brandau's dog paid no attention to him, but headed deeper into the corn field. Mr. Brandau sent a charge of shot in the direction where he thought the thieves might be. Hardly had the sound of the shot died away before there was [illegible] corn field and an auto started up the highway, running close to the field. Mr. Brandau, returning to the yard, went over to the chicken house and found a number of his best chickens had been killed and placed in a coop ready to be taken away when the thieves were scared away by the dog.

In a Quandary.

A charming hostess, who was entertaining a party of children, discovered one little fellow sitting in a corner apparently lost in thought. "What are you thinking about, Harry?" "Mother told me not to take two oranges," piped the little man, "and I was thinking I would be mighty lucky if I got one."

Heel for Slippery Weather.

A new shoe heel for use in slippery weather has a number of adjustable points which are pushed into position for use by a lever on the back of the heel.

Nearing Age of Discretion.

As a general thing a woman has to be about 80 years old before she realizes that no fancy waist is worth $18.—Galveston News.

Daily Thought.

Gravity is the ballast of the soul which keeps the mind steady.—Fuller.

Swan Songs.

According to Pliny ("Natural History,") "Swans, a little before their deaths, sing most sweetly;" and it is from this that the "swan-song" has acquired a figurative use—the last work of a poet or musician, composed shortly before his death. To the English people of Tennyson's declining days, "Crossing the Bar" was that poet's swan-song, even as the music of "Oberon" was the swan-song of Karl von Weber.

Rainy Day and Business.

Someone figured that a rainy day cost New York an unconscionable amount of money. Women, he explained, disbursed 85 per cent of the money earned by men. On rainy or dark days they remain indoors mostly. Store sales were curtailed, traffic reduced and nearly every class and character of business was affected adversely. Theaters, movie shows, ball games and general amusements suffered seriously.

Dark Hour for the Editor.

Every girl named Kate has a different way of spelling Catherine, and it's a dreadful thing if the newspaper doesn't happen to spell a girl's name her way.—Jewell Republican.

Hail of the Mariners.

It is said that it is customary for every English Christian sailor to hail any companion English vessel with the words, "494, sir." Immediately the reply is received, "6 farther on." The meaning of the signal is that in the sailor's hymnbook, 494 is Fanny Crosby's hymn, "Blessed Assurance, Jesus Is Mine," and 6 farther on, or No. 500, is "God Be With You Till We Meet Again."—The Christian Herald.

First Woman Printers.

The first woman printers are said to have been nuns of the Dominican order, who ran a printing press in the convent at Mount Ripoli, Italy, as early as 1476.
